## Professional Summary

GenAI Developer and Data Science professional focused on RAG systems, document intelligence, support automation, resume intelligence, and applied machine learning. Rahul's work combines Python backends, LangChain/OpenAI pipelines, FAISS/vector retrieval, structured extraction, and evidence-first interfaces for practical AI workflows.

## Skills

Python, FastAPI, Flask, Streamlit, Angular, TypeScript

LangChain, OpenAI, Pydantic AI, FAISS, vector retrieval, prompt and context design

Pandas, NumPy, scikit-learn, TensorFlow/Keras, NLP, data preprocessing

SQLite, API integration, async jobs, RBAC-aware workflows, admin tooling

Technical communication, leadership, teaching, public speaking, problem solving

## Selected Projects

### **Ticket Support System RAG Automation**

Built a Python automation service that connects Freshdesk, OpenAI/LangChain, SQLite, and FAISS to reuse historical closed-ticket knowledge for AI-assisted internal support notes.

### **AskMax Document RAG Backend**

Developed a Flask document-question-answering backend that ingests DOCX manuals, preserves hierarchy, tables, and screenshots, builds tenant-scoped FAISS stores, and returns grounded HTML answers.

### **Dynamic Resume Matcher**

Created a full-stack AI resume matching system with FastAPI, Angular, SQLite, RBAC, asynchronous resume ingestion, Pydantic AI extraction, structured candidate profiles, scoring, and candidate chat.

### **Cognitut Knowledge-Based Tutoring System**

Built a Streamlit/LangChain tutoring platform where students ask questions against local syllabus and reference-book knowledge using open-source LLMs.

### **Wind Speed Prediction R&D**

Worked on machine-learning preprocessing and forecasting for raw wind-turbine data, handling noisy sensor feeds and nearly 30% missing values.

### **Emotion Recognition Text Classification**

Developed a TensorFlow Bidirectional LSTM model for multi-class emotion classification over text, covering joy, sadness, anger, surprise, fear, and love.

## Experience

## Web Developer Intern - Engineering Monks

Worked on front-end components, styling, Git workflows, and basic API integration while learning standard client-server delivery patterns.

## Student Coordinator - Veltech Multitech Entrepreneurship Development Cell

Coordinated student entrepreneurship work, customer-expectation discussions, pitch-style activities, and college-level event responsibilities.

## NCC Cadet Sergeant

Earned promotions through regularity, responsibility, and dedication; guided junior cadets on soft skills, theory, and camp preparation, and reached Pre-IGC camp in rifle shooting.

## Education

B.E. Computer Science Engineering, Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai, 2020-2024

Higher Secondary, Science PCM, Government Co-ed Senior Secondary School, Lajpat Nagar, 2019

Secondary School, Surajkund International School, 2017

## Certifications

Machine Learning - Andrew Ng course sequence

Python Programming - University of Michigan course sequence

Google Data Analytics Professional Certificate

AWS Certified Cloud Practitioner

Business English Certificate - Cambridge English

## Leadership And Interests

NCC leadership, junior cadet mentorship, camp guidance, awareness runs, cleanliness campaigns, and blood donation event volunteering

Entrepreneurship Development Cell coordination with a strong interest in customer expectations and business design

Technical curiosity around software modification, operating systems, AI/ML reading, and improving broken or inefficient workflows
